Vishal V Patil

SENIOR WEB DEVELOPER / LEAD
ENGINEER

Dear Hiring Manager,

I am excited to apply for the Senior Web Developer / Lead Engineer role. With over 7.6 years of experience in PHP development, specializing in Laravel and CodeIgniter, as well as React.js, JavaScript, Docker and basis of AWS, I have successfully delivered ERP, Ecommerce, Avionics, Community, Edtech domain's scalable, secure web applications for enterprise clients, including Panasonic, JPMorgan FROSCH, and ShulCloud.

Currently, as a Principal Software Engineer at Calsoft Inc., I lead backend development initiatives focused on system architecture, security enhancements, audit logging, API development, and deployment reliability. Previously, at Cybage Software, I modernized legacy PHP applications into React-based platforms and integrated key third-party services such as Twilio and Google Analytics 4.

My expertise includes Laravel, CodeIgniter, RESTful API development, MySQL, MongoDB, CI/CD pipelines, cloud-based deployments, and performance optimization. I am passionate about building scalable and maintainable solutions, driving technical excellence, and leveraging modern technologies to solve complex business challenges. I would welcome the opportunity to discuss how my skills and experience can contribute to your team's success.

Thank you for your time and consideration.

Vishal V Patil

Sincerely,
